

# ORGANIZATIONAL STRUCTURE

The organization has a hierarchy in administration and this ensures a smooth flow of policy making / policy implementation and also ensures a feedback / redressal mechanism.

There are monthly audits by various committees to ensure quality. This includes the

mortality and morbidity committee, the operation room committee, the

pharmacy and therapeutics committee, the medication safety team,

infection control team and the overall quality sustenance is ensured by the QIPST.

The SRU centre for health care quality and patient safety is operational since 2012.
